

Edgenuity and Montgomery Virtual Program Work Together to Drive Flexible Online Learning Opportunities Across the Commonwealth

Online Program delivered over 90% pass rate last year.

Scottsdale, AZ (PRWEB) December 14, 2016 -- Edgenuity, a leading provider of online and blended learning, and the Montgomery Virtual Program (MVP) in Montgomery County, Pennsylvania today outlined how they are working together to support the growing demand for virtual learning among both students and adult learners. MVP's partnership with Edgenuity creates an ideal online learning environment for MVP's students seeking credit recovery, acceleration, and more, resulting in a 94% pass rate last year.

"Many of today's students need the flexibility that an online environment provides," said Jeffrey Rothenberger, Program Administrator at MVP. "Edgenuity's high quality curriculum and personalized instruction have enabled us to provide an effective way for our students to catch up or get ahead."

MVP utilizes today's most innovative content from Edgenuity to offer a wide range of courses taught by highly qualified teachers. While enrolled in their local school, MVP students are able to complete Edgenuity's online coursework on a schedule that works best for them. Students can continue to participate in school-sponsored activities and athletic programs and attend vocational/technical high school when enrolled in MVP. Courses include standard, accelerated, honors, Advanced Placement™, SAT, ACT, and Keystone Prep and electives, and may be used for initial credit, credit/unit recovery, for homebound students and for alternative education programs.

"We are focused on meeting the individual needs of diverse learners, from credit recovery to acceleration," said Sari Factor, CEO of Edgenuity. "MVP shares that passion, and it's clear that a new and growing group of students are benefitting from access to well-designed curriculum and instruction that MVP is making accessible in a flexible, virtual setting."

About Edgenuity

Edgenuity is a leading provider of online curriculum, supplemental programs and instructional services for the K-12 market. Our solutions are in use in 9 of the top 15 school districts in the U.S., helping schools meet their academic goals and improving student outcomes. Our rigorous, standards-aligned digital content is fully flexible for use in any online or blended learning model to support a personalized learning environment – from elementary through high school. We offer honors and Advanced Placement courses, credit recovery, intervention and test readiness. Edgenuity's Blended Learning Services, Instructional Services and Professional Development offerings, as well as intervention programs such as Pathblazer® and MyPath®, help students, educators and districts achieve success in their online learning programs.
