

Spark

ASSESSMENT & REMEDIATION

Assessment and Remediation Tool for English Language Arts (ELA) & Math K-8 Students

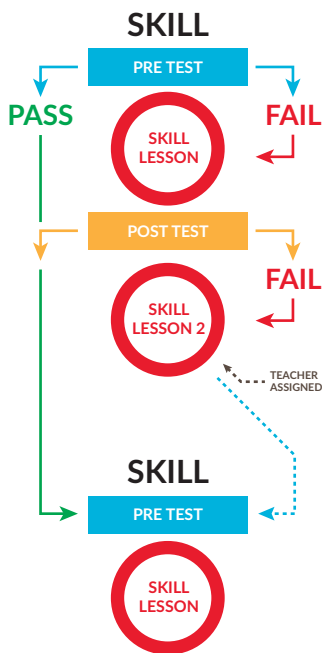

SPARK is a flexible and media-rich set of content-based assessment tools and instructional materials designed specifically to support the state standards for recommended grades K-8. SPARK creates individualized and prescriptive learning paths based on each student's specific level of skills mastery, providing them with extremely efficient and targeted skills practice and remediation.

BENEFITS AND FEATURES

- ✓ Promotes mastery of K-8 English Language Arts (ELA) and math skills
- ✓ 17-25 units (individual skill lesson and assessment) in both ELA and math per grade level
- ✓ Lessons utilize grade-appropriate texts
- ✓ More than 1,600 skill assessment questions
- ✓ Prescriptive learning paths
- ✓ Lessons are embedded with rich animations and multimedia, direct-instruction videos, and dynamic learning activities
- ✓ Can be utilized as a standalone or as part of a course of study

HOW IT WORKS

Each **SPARK** unit focuses on a single skill. SPARK utilizes Odysseyware's **CRx (Credit Recovery) mode**, assigning a pretest for each unit. Based on the results of the assessment, if a student passes, they are assigned the next pretest. If a student fails the pretest, they are assigned a remedial skill lesson, followed by a post-test.

“Thanks to SPARK, we know the ‘holes’ in each student’s math knowledge and can provide targeted instruction to ensure he or she masters required concepts.”

– Kyle McCartney, Principal
Oxford Middle School, Oxford, Alabama
